EXPERIENCE

Cercademi, Chile (remote): Lead Full Stack Developer

03/2024 - 10/2024

Develop a medical appointment system where the professional can add all his data, schedule appointments and show his skills to the public.

I worked with the client via video call while he gave me instructions on what to do with the application.

Use Nextjs, postgresql, typescript, tailwind, Mercadopago, and other tools.

Argxp, Argentina (remote): Full Stack Developer

07/2023 - 02/2024

Developed 2 web applications using Nextjs, Nodejs, Typescript, PostgreSQL, implementing best practices and quality standards.

Contributed to the design and architecture of the application, working closely with other team members to meet client requirements.

Worked in an agile team to meet project deadlines, participating in daily stand-ups, retrospectives, and sprint planning.
